

EASYTOUCH®

PL4 AND PSL4 POOL AND SPA CONTROL SYSTEMS

GIVE YOUR POOL THE FREEDOM AND CONVENIENCE OF AFFORDABLE AUTOMATION

For pools with standard features, automation convenience and energy savings have arrived. The new EasyTouch PL4 and PSL4 pool and spa systems bring affordable, push-button control of up to four automation schedules. Imagine setting pump schedules, heater temperatures, turning valves, controlling water features, pool and landscape lighting, cleaners, sanitizers and more without repeated trips to the equipment pad. EasyTouch PL4 and PSL4 systems can even help you save on energy costs because with automatic scheduling, you don't have to rely on memory or limited time clocks to turn off equipment.

With four different configurations available, there's an EasyTouch system to fit every pool and spa. The EasyTouch PL4 control system is a four-circuit system designed for a single body of water, while the EasyTouch PSL4 system is a four-circuit system designed to control a pool/spa combination. For even greater control, add an optional ScreenLogic® Interface to your Pentair automation system and access your pool from practically anywhere and at any time using your smartphone, computer, mobile digital device or Apple Watch® wrist wearable device.

FEATURES INCLUDE

- Controls filter and pump functions, plus three additional pieces of equipment—allowing you control of up to four operating schedules or programs.
- Also interfaces with lighting, water features, heaters and heat pumps, spa control, chemical control and sanitizing equipment.
- Push-button operation and clear, intuitive instructions and displays make it a cinch to use.
- All circuitry and fully programmable controls are centralized in a Power Center installed at the pool equipment pad.
- Supports our ScreenLogic interface for control by a variety of mobile devices.

AN ECO SELECT® BRAND PRODUCT

Pentair control systems can optimize energy use and equipment performance by automating and synchronizing equipment scheduling. They prevent problems and waste so pool owners don't have to rely on memory or limited time clocks to operate or turn off equipment. As the global leader in pool and spa equipment manufacturing, we strive to provide greener choices for our customers.

EASYTOUCH®

PL4 AND PSL4 POOL AND SPA CONTROL SYSTEMS

Easy-to-read LCD display with clear, intuitive instructions makes operation a cinch

Runs up to four operating schedules or programs

Controls are housed in a durable, weatherproof Power Center installed at the equipment pad

Service personnel do not need to enter your home for testing or troubleshooting

ADVANCED CAPABILITIES IN AN AFFORDABLE, EASY-TO-INSTALL SYSTEM

EasyTouch PL4 and PSL4 control systems are the economical way to bring sophisticated automation capabilities to standard pools. These systems give you control over filtration pumps, lighting, chemical management and more. Like Pentair control systems with broader capabilities, EasyTouch PL4 and PSL4 control systems are built with simple installation and ease-of-use in mind. Push-button controls and easy-to-understand displays take the guesswork and frustration out of setting up and modifying control programs. Plus, when paired with an optional ScreenLogic® Interface Kit, the EasyTouch PL4 and PSL4 control systems can even be operated remotely with many popular mobile digital devices, allowing you greater control of your pool.
